Transparency matters

Personal Contract Hire offers clear benefits, but there are a few important points to consider.

Insurance

You're responsible for insuring the car with fully comprehensive cover.

Mileage allowance

It's important to choose a realistic mileage allowance. If you exceed the agreed mileage¹, an excess mileage charge will apply, based on your lease terms.

Vehicle conditioning and servicing

The car must be maintained in line with manufacturer guidelines. At the end of the agreement, its condition will be assessed against the leasing company's Fair Wear and Tear policy, based on BVRLA guidelines.

Early termination

If you end your agreement early and your leasing company allows this, an early termination fee will apply. The amount will depend on your contract terms, remaining lease period, and the vehicle's value.

1. You can talk to your leasing company about increasing your allowance during the agreement, if you think you're going to go over.
